**What is an MCC?**

The MCC is a Federal Income Tax Credit program. An MCC provides a double bonus. It increases the loan amount you qualify for **and** it increases your take-home pay. The MCC entitles you to take a federal income tax credit of thirty-five percent (35%) of the annual interest you pay on your home mortgage. Because the MCC reduces your federal income taxes and increases your net earnings, it is a great help in qualifying for your first home mortgage. But it doesn't stop there. The MCC is registered with the IRS, and it continues to decrease your federal income taxes each year for as long as you live in your home.

**How to Qualify**

- ❖ Your household income and the purchase price must not exceed the limits shown below.
- ❖ You must not have owned a principal residence in the last three years unless purchasing on a Targeted Area or are a Qualified Veteran.
- ❖ You must occupy the home.
- ❖ You must apply for the MCC through a participating Lender, and pay a non-refundable MCC Application Fee.
- ❖ You must purchase a home within the Eligible Loan Area.
